
PNEUMATIC STRETCHING TABLE

Model TPP

TECHNICAL SHEET

Seedex stretching table with pneumatic clamps, allows the stretching of fabrics on to the screen printing frames with the required degree of tension. This equipment can be used to tension various types of fabric such as polyester, nylon and steel.

The special characteristic of this stretching table is that the pneumatic clamps are mobile and can be positioned as required in order to tension even just one frame for each tensioning operation. This stretching table allows to the operator to use also the small rest of fabrics that otherwise could be not useable .
